

WINDSOR and ESSEX COUNTY MILKWEED PLANTS GROWERS

These are some of our local nurseries that I've contacted and supplied FREE milkweed seeds and encouraged to grow them, hopefully by late spring they will have a nice variety ready to be planted in our gardens. All members of our group will be able to pick them up at a discounted price, invite your family and friends to buy flowers from them also. Their prices are much lower than the big box stores and you'll be supporting our local economy.

(Milkweed small plants will be sold in the spring around \$ 3:00 each.)
