

Just imagine what would be like to have these butterfly tents all over your city flower nurseries, parks, and any other public place where people could enjoy watching and touching the Monarch butterflies while flying around among potted flowers and milkweed plants.

Please contact your Mayor, your council representative, and your favorite flower nursery and let them know that we could help set up with milkweed plants, flowers, and anything else needed for an extraordinary

Feel free to tell anyone you know where you buy flowers and plants from, and we will do the rest for you. This will ultimately help to create more butterfly and pollinators gardens in your area that will eventually attract more Monarch butterflies to all your neighbors gardens. It's a win win situation for everyone.

We all know that most people love butterflies and bees, let's do something extraordinary in your city and county never seen before. When most people will experience the magic they will plant more for our pollinators.
